

Name: Dr. Munish Kumar

Designation: Assistant Professor

Department: Biotechnology

Specialization: Genotoxicology and Cancer Biology

Recent Publications (Names of Latest five)

Kumar Munish, Tyagi N, Moshal K.S, Sen U, Pushpakumar SB, Vacek T, Lominadze D, Tyagi SC. GABA_A receptor agonist mitigates homocysteine-induced cerebrovascular remodeling in knockout mice. Brain Research 2008; 1221:147-153. Impact Factor: 2.6.

Kumar Munish, Tyagi N, Moshal KS, Sen U, Kundu S, Mishra PK, Givvimani S and Tyagi SC. Homocysteine decreases blood flow to the brain due to vascular resistance in carotid artery, Neurochemistry International. 2008; 53(6-8):214-9. Impact Factor: 3.4.

Kumar Munish, Agarwal S K, and Goel S K. GSTs polymorphism and lung cancer risk among north Indian population. Molecular and Cellular Biochemistry. 2009; 22(1-2):73-9. Impact Factor: 2.1

Kumar Munish, Tewari S, Sharma P, Verma V, Agarwal SK, Chauhan LKS and Goel SK. Genetic polymorphism and genotoxicity of trichloroethylene among north Indian population. Journal of Environmental Biology 2009; 30: 685-691. Impact Factor: 1.5.

Kumar Munish, Lu Z, Apana Takawi, Chen W, Ramos KS, Ken H and Li Y. The Human Tumor Inactivation of p53 gene by microRNAs in multiple myeloma. Clinical Cancer Research, 2010. Impact Factor: 11.3
